

32-Hour Erector/Dismantler Supported Scaffold Safety Training Program

MANDATORY training requirements for individuals Erecting/Dismantling supported scaffolds of 40 ft in height or more to perform his or her job tasks

Scaffolding is widely used during construction and renovation activities. In its simplest form, a scaffold is any temporary elevated or suspended work surface used to support workers and/or materials. There are many types of scaffolds, both supported and suspended.

*“Supported scaffold” shall be defined as one or more platforms supported by outrigger beams, brackets, poles, legs, uprights, posts, frames, or similar rigid support **forty feet in height** or more and including, but not limited to, sidewalk bridge scaffolds, single pole scaffolds, tube and coupler scaffolds, fabricated frame scaffolds, tubular welded frame scaffolds, outrigger scaffolds, needle beam scaffolds, mobile scaffolds, repair bracket scaffolds, mast climber scaffolds that are mechanized or motorized, back structures for personnel hoists and/or material hoists and system scaffolds*

TSC’s 32-Hour Erector/Dismantler Supported Scaffold Safety Training Program is in compliance with the training requirements of Subchapter 2 of chapter 1 of title 26 of the administrative code of the city of NY. The training is typically provided in four, eight-hour class sessions, however TSC is aware of the time sensitive needs of today’s Construction Professional and will work with your organization to design the most suitable schedule possible. With evening class sessions available, one can fulfill work obligations by day and receive start of the art training by night. The scheduled programs are held at our convenient Long Island City Location at 36-06 43rd Avenue, Long Island City, NY 11101, across the Museum Of African Art. Walk to NYC transit, LIRR, easy access to Queens Midtown Tunnel, 59th Street Bridge and LIC, with plenty of nearby parking options.

WHO SHOULD ATTEND?

*Any person who **erects, dismantles, repairs, maintains or modifies** any supported scaffold over 40 feet must complete a training program of at least **thirty two - hours** and be issued a supported scaffold user certificate verifying completion of the program. An eight-hour scaffold safety and training refresher program or course must be completed **four years**.*

ATTENDEES WILL TAKE HOME:

- *Comprehensive Course Manual, inclusive of applicable NYC Building Code changes and select segments of actual Power Point presentations utilized in training. Excellent reference resource participants will retain after completion of training.*
- *Full color, waterproof picture ID supported scaffold certificate of completion card in accordance with Local Law 52 guidelines.*

Course Topics include:

- *Overview of NYC Building Code-Article 8 of Subchapter 19 and Article 10 of Subchapter 2-Supported Scaffolding*
- *Hazards & Control Measures associated with scaffold installation & erection*
- *Basic Scaffold math & Engineering Concepts*
- *Hands-On student participation of scaffold erection & role of competent person (s).*
