

30 Hour OSHA Safety and Health Outreach Training Program

The OSHA Construction Outreach Training Program is a voluntary training program intended to assist individuals in recognizing, comprehending and complying with federal OSHA requirements. TSC offers the 30-Hour OSHA Construction Outreach Training Programs, in-house or on-site, utilizing the latest teaching techniques and audio visual aids to deliver needed information to workers and supervisors in a professional and informative manner.

This training is intended to provide an initial overview of key OSHA Construction Industry Standards. The content of the training is flexible, permitting TSC to individually tailor training programs to suit any organizations industry-related, site-specific safety-needs. The benefits of the outreach training are immediate for both employee and employer and include increased workplace safety awareness and compliance.

30-Hour OSHA Information

This program includes OSHA policies, procedures, and standards, as well as construction safety and health principles. The training will place emphasis on those areas that are most hazardous, using OSHA standards as a guide. This program is more applicable for the construction supervisor, with a more intensified focus on various occupational safety and health standards. Course participants can expect to be able to locate and identify OSHA standards in 29 CFR 1926; identify common causes of accidents and fatalities in hazardous areas of construction; recommend abatement techniques for such hazards; and recognize various construction processes, materials and equipment.

Course Completion Materials

Participants are required to attend all class sessions to receive a completion certificate and OSHA completion card. Completion certificate will be issued at the conclusion of training program. Participants who successfully complete the course will receive a laminated 30-hour OSHA card within 4-6 weeks after conclusion of class directly issued by OSHA.

Sample Course Outline

Each of the following topics may be covered during an OSHA Outreach Training Course. The items marked with an asterisk are mandatory for the 30-hour class.
