4 Hour Confined Space/4 Hour Fall Protection Awareness Seminar

A number of workers are injured or killed each year while working in confined spaces. The hazards that exist when entering and working in a confined space are capable of causing injury, illness and death. Often accidents occur because one is unable to identify these hazards. Ultimately, the confined space is a hazard, and must be treated as such. When working around a confined space it is necessary to be aware of the dangers that exist in and around the confined space area.

In addition, as per the U.S. Department of Labor Occupational Safety & Health Administration, falls are consistently the leading cause of worker fatalities for those involved in the U.S. construction industry. Each year, on average, between 150 and 200 workers are killed and more than 100,000 are injured as a result of falls at construction sites. OSHA's 29 Code of Federal Regulations, Subpart M, Fall Protection, includes most construction workers except those inspecting, investigating, or assessing workplace conditions prior to the actual start of work or after all work had been completed.

This course provides an introduction to hazard identification in confined spaces and basic skills related to proper use of fall protection equipment. This is a valuable training for anyone who works in environments where confined spaces and/or fall hazards exist.

The 4HR Confined Space/4 HR Fall Protection Training is a one day seminar that includes two 4 hour lectures, video, and demonstration of equipment used when working around confined spaces and personal fall arrest systems used on construction sites.

Confined Space/Fall Protection Awareness Seminar Outline

CONFINED SPACE SEMINAR

1. Introduction
2. Confined Space Recognition
3. Requirements for Entry
4. Atmospheric Hazards
5. Physical Hazards
6. Personal Protective Equipment
7. Regulatory Requirements

FALL PROTECTION SEMINAR

1. Introduction
2. General Requirements, Equipment and Systems
3. Other Job Specific Standards
4. Training Requirements

4 HR Confined Space/ 4 HR Fall Protection Awareness Seminar Registration Form

Section I- Participant Information
