Qualified Rigger Training

Effective November 8, 2010, per the new Cranes and Derricks Standard Subpart CC specified in 29 CFR 1926.1401, 1926.1404, and 1926.1425, a qualified rigger is NOW required during hoisting activities for assembly and disassembly work. Employers must designate a qualified rigger for each particular job and must ensure that the qualified rigger has the ability to perform specific rigging tasks. Workers must be trained to recognize and avoid hazards.

In response to the New Cranes & Derricks Standard Subpart CC for qualified rigger, TSC Training Academy is NOW conducting qualified rigger classes.

Who should take this course?

Any person designated as the qualified rigger by an employer who performs specific rigging operations and load activities.

A qualified rigger is a rigger who meets the criteria for a qualified person such as:

- Possesses a recognized degree, certificate or professional standing, or
- Has by extensive knowledge, training and experience, and
- Can successfully demonstrate the ability to solve/resolve problems relating to rigging.

Employers must use a qualified rigger during hoisting activities for assembly and disassembly. Additionally, qualified riggers are required when workers are within the fall zone and are engaged in hooking, unhooking, or guiding the load, or in the initial connection of a load to a component or structure. **Employers must ensure that the qualified rigger has the ability to properly rig load work for a particular job because there are different types of rigging jobs and each load that requires rigging has unique properties.**

Course Description:

The 8-HR Qualified Rigger training is designed to fulfill the training requirements for Qualified Rigger person under the new OSHA requirement 1926.1400, as well as to provide the class attendee an overview of hazards related to rigging and in the establishment of safe and proper rigging practices.

Material covered in this course includes but is not limited to:

Course Content:

- Basic Rigging Principles
- Rigging Component Identification
- Mathematical Calculations
- Sling Selection
- Rigging Inspection
- Wire Rope and Chain Design

- Proper Rigging Techniques

Regulations:

- ASME B30.5
- ASME B30.9
- OSHA 29 CFR Part 1926.1400

Language Comprehension

All course attendees registered to the Qualified Rigger Training must be fluent in **English**. The course is currently being offered in English ONLY. There's no exam required to obtain a course completion certificate; however, the language comprehension requirement must be met.

Course completion materials:

Upon successfully completing the full 8 hours of training, eligible participants will receive a certificate of completion from TSCTA. The course certificate indicates that the student has completed training that meets requirements mandated in the OSHA 1926.1400 standard. This certificate will be valid for three years.

Where Can I Obtain More Info:

If you have any questions or need to obtain more info on the new crane standard, please visit the OSHA website at www.OSHA.gov.

See price structure on the registration forms for individual course and combined courses.

Qualified Rigger Training Registration Form

Date of selected training: _____

Section I- Participant Information (Please PRINT)

NAME (LEGAL NAME ONLY) _____
