

CEUs: 3.0

COURSE DESCRIPTION:

During this course, participants will learn the most current rigging standards and the core management skills needed to be an effective Licensed Master Rigger. With the use of New York City Construction Codes, OSHA Regulations and industry best practices, participants will learn how to stay in compliance with the most current rigging standards. Material covered during the course will include rigging methods, installation, maintenance, repair and use of rigging hardware and equipment, guidance on how to read scaffold design drawings, how to verify the fitness of the rigging crew, properly train workers on related hazards, and also how to identify and respond to emergency situations, climber/tower crane assembly, jumping, and disassembly, critical picks, Suspended scaffolds, fall protection and more.

The course will also include a hands-on portion where the instructor will determine if each student is capable of applying rope knots, terminating wire rope, building a block, effectively installing fall protection systems, and inspecting/maintaining different types of scaffold hoist motors.

LEARNING OUTCOMES include:

- Identify rigging equipment and its hazards
- Outline differences between OSHA and NYC DOB scaffold regulations and their sources
- Develop skills necessary to understand rigging math and calculations
- Perform rigging inspections using provided rigging principals
- Identify critical picks and check rigging paperwork as per 1 RCNY 104-20, 1 RCNY 104-21, 1 RCNY 104-22
- Discuss common working platforms and safety protocols for lifting/lowering loads

COURSE COMPLETION:

Students are required to complete 100% of the course and actively participate in all learning activities including hands-on demonstrations to receive the 30 Hour Master Rigger course completion certificate. Training must be completed one year immediately prior to the renewal.
