

8-Hour Fall Protection Training Course

CEUs: 0.8

COURSE DESCRIPTION:

Falls are among the most common causes of serious work-related injuries and deaths. According to the New York City Department of Buildings (DOB), in 2016 there were 173 serious construction accidents involving worker falls. This 8-hour course is intended to educate workers on how to avoid accidents and injuries while working on roofs, leading edges, ladders or scaffolds by defining the regulations and safety rules associated with fall hazards on construction sites. Participants will gain the knowledge and skills necessary to identify and avoid hazards associated with elevated work locations. The training will also cover topics such as: guardrail system installation, use of safety nets, donning and doffing of personal fall arrest, ladders and scaffold safety, and falling object protection under OSHA and DOB regulations.

LEARNING OUTCOMES include:

- Identify major fall hazards.
- Distinguish between OSHA and DOB Regulations related to working at heights
- Describe types of fall hazards.
- Protect him/herself from fall hazards.
- Identify appropriate fall protection equipment
- Execute proper use of fall protection equipment
- Recognize employer requirements to protect workers from fall hazards.

COURSE COMPLETION:

Students are required to complete 100% of the course and actively participate in all learning activities including the review quiz to receive the 8HR Fall Protection Course Completion Certificate and Card.
